

Ref. No. MCTE/22/IPR-01

Date 08/08/22

## **INTELLECTUAL PROPERTY RIGHTS**

The Governing Body of Mundeshwari College for Teacher Education constituted an Intellectual Property Rights as per the directives of UGC. The primary objective is to protect and incentivize the creation and development of new ideas, inventions, and creative works, thereby fostering innovation and economic growth. Intellectual Property Rights are important legal protections. They are created to safeguard various creations of the human intellect. This includes inventions, artistic works, designs and brand identifiers. The objectives of IPR are important to encourage progress and ensure that intellectual property is fairly used.

**Objectives:** In B.Ed. College, the objectives of Intellectual Property Rights (IPR) education are to cultivate awareness of IPR, understand its importance in education and research, and to equip future educators with the knowledge to protect their own intellectual creations and respect the rights of others.

### **Understanding and Awareness:**

- **Recognizing the importance of IPR:** Students should understand that intellectual property rights are crucial for protecting original work and fostering innovation.
- **Basic Concepts of IPR:** Students should gain a foundational understanding of different types of IPR, such as copyrights, patents, trademarks and trade secrets.
- **Understanding the Legal Framework:** Student should be aware of the legal provisions and regulations related to IPR in their respective jurisdiction.
- **Importance of IPR in Education & Research:** Students should understand how IPR impacts education materials, research publications & teaching resources.

### **Practical Application and Skills**

- **Protecting Intellectual Property:** Students should be able to identify their own intellectual property and understand how to protect it, whether through copyright registration, patent applications, or other means.
- **Respecting the Rights of Others:** Students should be trained to recognize and respect the IPR of others, avoiding plagiarism, copyright infringement, and other forms of intellectual property violations.
- **Ethical Use of Intellectual Property:** Students should be educated on the ethical implications of using and sharing intellectual property, promoting responsible and fair practices.
- **Awareness of IPR as a Marketable Asset:** Student should understand that intellectual property can be a valuable asset, both personally and professionally, and that it can be used to generate income or create opportunities.
- **Promoting Innovation and Creativity:** By understanding and respecting IPR, students can be encouraged to create original works and contribute to innovations in their fields.
