

## **Report on National Science Day Celebration**

National Science Day was celebrated in Mundeshwari College for Teacher Education with great enthusiasm to promote scientific temper and innovation among students on 28<sup>th</sup> February 2026. The program aimed to encourage curiosity, creativity, and practical understanding of scientific concepts.

On this occasion, students actively participated by preparing working models related to various branches of science. The models covered topics such as renewable energy, environmental protection, basic physics principles, simple machines, and everyday scientific applications. Each model was thoughtfully designed to demonstrate scientific ideas in a simple and effective manner.

Students confidently demonstrated their models, explaining the concepts, working mechanisms, and real-life applications to teachers and fellow students. The demonstrations reflected their analytical thinking, teamwork, and problem-solving skills. Faculty members appreciated the efforts of the students and guided them with valuable suggestions.

The celebration provided an excellent platform for experiential learning and helped bridge the gap between theory and practice. Overall, National Science Day was celebrated successfully, inspiring students to develop interest in science, research, and innovation.
