

## Report on AIDS Awareness Programe

The NSS unit of **Mundeshwari College for Teacher Education**, under the guidance of the NSS Coordinator **Arvind Kumar**, organized an AIDS Awareness Program in the nearby locality of Khagaul on the **14th of August 2025**. The objective of the program was to spread accurate information about HIV/AIDS, break social stigma, and encourage preventive measures. The event began with a welcome address by the NSS Coordinator, highlighting the importance of awareness in preventing the spread of HIV. Our IQAC coordinator, **Kumari Shashi Singh**, delivered informative talks on the causes, modes of transmission, prevention methods, and available treatment options for HIV/AIDS. Volunteers shared information and distributed pamphlets in the local language to make the information more accessible. Interactive sessions allowed community members to clarify doubts and share their concerns. Special emphasis was given to the message that HIV is not spread through casual contact and that people living with HIV deserve care, respect, and inclusion. The program concluded with a pledge taken by all participants to spread awareness in their families and neighbourhoods. The initiative was well-received by the local community and successfully achieved its aim of educating people and dispelling myths regarding HIV/AIDS.
